EDUCATION

Chameli Devi Group of Institutions, Indore **2021 – 2025**
B.Tech - Information Technology - ***CGPA - 7.0*** *Indore, Madhya Pradesh*

EXPERIENCE

Training at Acciojob Skill Center Noida **september 2025 - June 2026**
Role - MERN Stack Development *Noida, Uttar Pradesh*

- Gained hands-on experience across the full MERN stack, contributing to both frontend (React) and backend (Node/Express) layers of 3+ applications.
- Built and consumed 50+ RESTful API endpoints across training projects, covering GET/POST/PUT/DELETE operations.
- Worked with MongoDB Atlas for cloud-based database hosting and management across multiple projects.
- Practiced component-based frontend architecture, building 300+ reusable React components over the course of training.
- Reduced page load time by almost 20 Percent through component-based architecture and lazy loading.

PROJECTS

HelpingHands Kitchen | MongoDB, Express, NodeJS, React.js, Tailwind CSS, JWT

- Developed a full-stack food donation platform using React, Node, Express, MongoDB and Tailwind CSS.
- Implemented JWT authentication and role-based access for **Donors, NGOs, and Admins.**
- Integrated React Leaflet and OpenStreetMap Nominatim for interactive location selection and reverse geocoding.
- Built donation claiming, expiry tracking, email notifications with Nodemailer, and REST APIs.

ReactChat – Real-Time Chat Application | React.js, Context API, Socket.IO, Tailwind CSS

- Designed a scalable Socket.IO event architecture handling 5+ **real-time event** types (join, message, typing, location, disconnect).
- Implemented typing indicators and online/offline status updates for improved **UX**.
- Added persistent chat history using local state, retaining messages across 100+ interactions per session.
- **Optimized socket reconnection logic,** reducing dropped-connection issues by 25 Percent.

Fullstack Employee Management System | React, Node, Express, MongoDB, Tailwind CSS, JWT

- **Built role-based access control** (RBAC) supporting 2 user roles (admin and employee) with distinct permissions.
- Implemented server-side input validation, reducing invalid data submissions by 90 Percent.
- Designed pagination and filtering for employee lists, improving UI responsiveness with 100+ records.
- Added password hashing (bcrypt) and token expiration for enhanced security.
- Wrote reusable API middleware for authentication, cutting duplicate auth code by 40 Percent.

TECHNICAL SKILLS

Language: JavaScript
Technologies/Frameworks: React, Redux, MongoDB, Nodejs, Express, Tailwind CSS, Websocket
Developer Tools: Git, Github, Postman, MongoDB Atlas, Vercel

EXTRACURRICULAR

- Served as **Vice President** of the college's annual technical and cultural fest, Citronics in 2024
- Active member of the college cultural fest community, contributing to event coordination, team collaboration, and successful event execution.
- Won the **Accio Collab Hackathon** by developing and presenting an innovative software solution within a competitive team environment.
